## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 9-16, 19-29, drawn to a method of obtaining phage particles comprising an antibody fragment directed against antigens expressed on the cell surface of a target cell, classified in class 435, subclass 5.
  - II. Claims 17 and 30, drawn to a cell-type specific library of phage particles, classified in class 435, subclass 5.
  - III. Claims 18 and 31-52, drawn to an antibody and phage antibody, classified in class 530, subclass 387.1.

The inventions are distinct, each from the other because of the following reasons:

2. The inventions of group II-III differ one from the other because the products of group II-III are chemically, structurally, and functionally distinct, therefore, the products are patentably distinct.
3. Inventions I and II-III are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the method of making the and obtaining the

Art Unit: 1642

antibody can be used to obtain distinct antibodies unrelated to those of the instant application.

4. Because these inventions are distinct for the reasons given above and the search required for the different groups are not required one for the other, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
